

## Guidelines for Holland Travel Soccer

**As the season approaches, we have a few guidelines to express to players and families to keep everyone safe and healthy. The NYSWYSA states on their website that;**

- Responsible Parties must limit spectators to **no more than two spectators per player.**
- Responsible Parties must **ensure a safe distance** (6ft) unless safety or the core activity (e.g. practicing, playing) requires a shorter distance.
- If shorter distance is required, individuals **must** wear acceptable face coverings, **unless** players are unable to tolerate a face covering for the physical activity (e.g. practicing, playing); provided, however, that coaches, trainers, and **other individuals who are not directly engaged in physical activity are required to wear a face covering.**

We will follow along with these guidelines and feel the “Tolerate Rule” would be best for our players, especially as we come in to the warmer weather. For games if a player is in, wear it as long as you can, or until they proclaim they cannot tolerate it anymore. Meanwhile players on the sidelines should always have a face covering on when not participating in games. During practice players will definitely wear face coverings unless they partake in running or scrimmaging (until intolerable). Then if a player needs a mask break, they can put it down to their chin.

Our biggest concern is keeping everyone safe during this time and we appreciate everyone following these guidelines. Coaches will not be monitoring the health of each player prior to games / practices. As a club we are asking Parents to take this responsibility to ensure players only show to games / practices in good health. Thank you to the Coaches, Parents and Players for continuing to be awesome and allowing the love of soccer to continue!
